ABOUT US

We are a fifth-generation custom jeweller handcrafting artisan jewellery for over 105 years. We specialise in custom-made fine jewellery, created onsite by master jewellers in Adelaide. Our core product offering includes bespoke engagement rings, wedding rings, dress rings and heirloom-quality pieces, each designed in collaboration with you to create sophisticated modern pieces that perfectly convey your story and legacy.

Our Custom Design Process

Designing a custom piece at Bell & Brunt is a collaborative and enjoyable experience. Here's how it works:

Bring in a sketch, a photo or an idea. Our team will guide you through styles, settings and materials to bring your vision to life.

Choose from natural diamonds, sapphires, rubies, emeralds and other gemstones of your choice with guidance from our experts. We only use ethically sourced stones.

Once all elements have been chosen, our designers create a sketch so you can visualise your piece. Then it goes to our jeweller's bench to be crafted just for you.

The finished piece undergoes stringent quality check for precision and perfection before its ready for you to collect.
